

# ATHLETIC FIELD LINERS

The Industry's Best for Synthetic Turf Athletic Fields

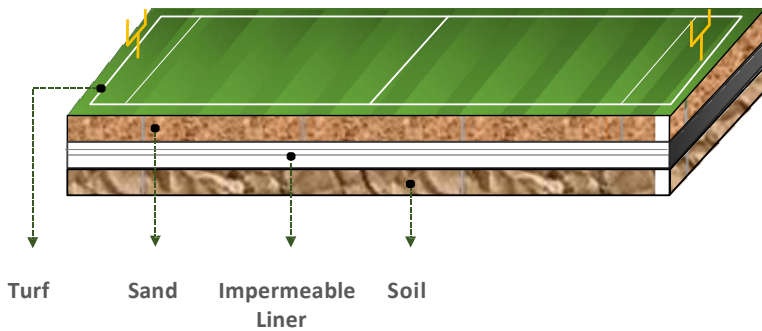

**TITAN**  
ENVIRONMENTAL USA

Titan Environmental USA is proud to offer the best liners for synthetic turf athletic fields. Durable and long-lasting, our liners provide a barrier between the soil subgrade and gravel layer for long-term moisture protection and reliable subgrade stabilization.

We offer convenient stock in Houston, custom fabrication, and superior customer service to meet your needs. Choose Titan for your next athletic field lining project!

## BENEFITS:

- Custom fabricated panels to fit specific dimensions.
- Quick to deploy and install = time and cost savings.
- Easy adhesive seaming in the field.
- Maintains flat contact with the subgrade allowing superior drainage.
- No thermal expansion = less wrinkling.

## OUR LINERS

- TE-PVC
- 20, 30, & 40mil
- Titan12
- Titan20
- Titan30

We also supply woven and nonwoven geotextile.
